

Knowledge Organiser - Science - Plants - Key Stage 1 (Year 2) - Spring 2 2025

Careers connected to plants:
agronomist, botanist, farmer, gardener,
horticulturist, illustrator, landscaper

What I already know

- I know that plants need sunlight, water and soil, Year 2 can be extended to experimenting with variables.

wildflower
flowers that are
not planted by a
person

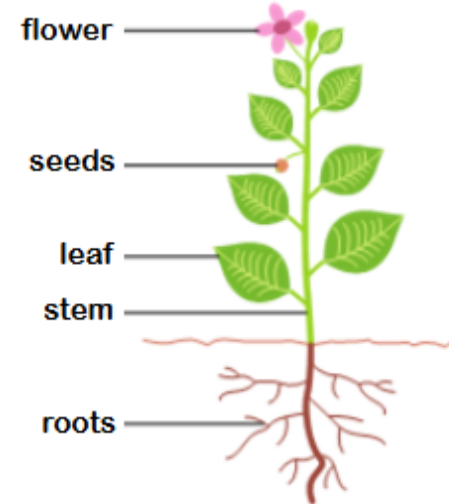

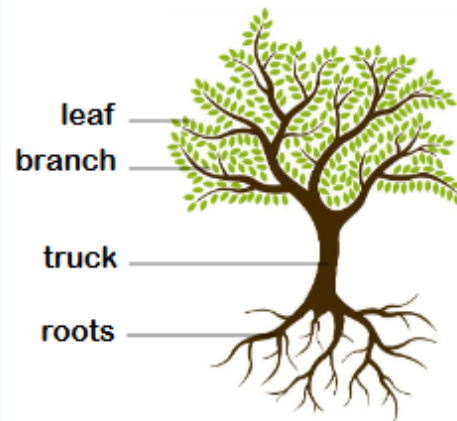

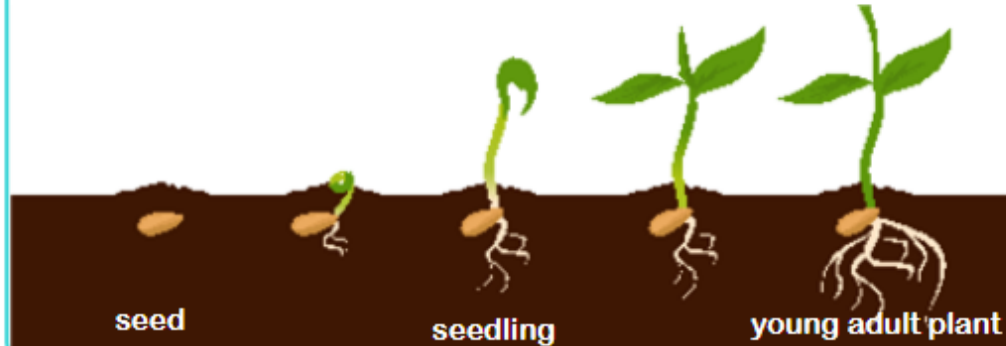

deciduous
trees that drop
their leaves
every year

evergreen
trees that keep
their leaves all
year round

Sticky Learning

Seeds grow into larger plants such as flowers, bushes and trees.

Core Learning

1. Understand that
seeds grow into
plants

2. Identify the basic
parts of a plant and
tree

3. Understand that
different plants can grow
in the same environment

4. Know the difference
between deciduous and
evergreen trees

5. Know that fruit and
vegetables are
varieties of plants

6. Record the growth
of a plant

Circle the wildflowers.

Circle the tree which loses its leaves during the winter.

Draw a line between the different stages of a plant's growth.

seed seedling young adult plant

Label the parts of the plant.

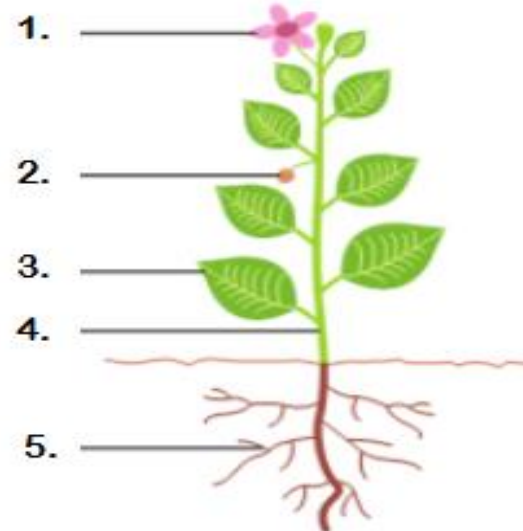

roots = ____

seeds = ____

stem = ____

leaf = ____

flower = ____

Science (Rocket) Words

Word	Meaning
tree	a large woody plant with a trunk and branches
oak	a variety of tree with large leaves and acorns
plant	a living thing that has roots or a stem or trunk and leaves
predict	to guess what might happen
seed	the small part of a plant which grows into a new plant
flower	part of a plant that has petals
root	part of a plant that grows underground
leaf	part of the plant that allows it to breathe and catch water
petal	a leaf that forms part of the flower and is usually coloured
stem	part of a plant that supports a flower
